Example 10
These studies were supported by a grant from the NIH (Grant #_____). Principal Investigator _____ holds stock in XYZ, Inc, and also serves on the Scientific Advisory Board. Although this grant has been identified for conflict of interest management based on the overall scope of the project and its potential benefit to XYZ, Inc., the research findings included in this particular publication may not necessarily relate to the interests of XYZ, Inc. The terms of this arrangement have been reviewed and approved by the Wake Forest University Health Sciences in accordance with its conflict of interest policies."

Different journals have different standards about publishing financial relationships. However, by always including acknowledgement of your financial interests in the manuscript you submit to the publication, you will have complied with the recommendations of the Independent Review Committee on Conflict of Interest issued as a condition of approval of your participation in federally or private industry sponsored research.
