Educational Media

Recorded lecture presentations in diagnostic ultrasound are available for purchase. In addition to the lecture series listed below, a listing of Obstetrical and Gynecological Ultrasound presentations by internationally recognized lecturers can be found on our website at WakeHealth.edu/ultrasound. A copy can be requested by calling 336-716-4505 or e-mail: cmu@wakehealth.edu. Each lecture is available on DVD and is 45-60 minutes in length.

Principles of Diagnostic Ultrasound Lecture Series – Presented by: Frederick W. Kremkau, Ph.D. This 6-hour lecture series covers the major topics involved in how modern ultrasound imaging and Doppler ultrasound work. Recent technological advances are included.

The lecture series serves three purposes:

- It provides an introduction for participants who are new to the field.
- It provides a review and update of recent technological advances for practicing physicians, sonographers and other health professionals.
- It provides a review for participants preparing for the UPI, CPI and VPI examinations administered by the ARDMS.

Topics within the series are:
