WANT TO KNOW MORE ABOUT MASSAGE?

More and more people are using natural therapies such as massage. The National Institutes of Health's National Center for Complementary and Alternative Medicine has information about massage:

<http://nccam.nih.gov/health/massage/>

WHAT PEOPLE SAY ABOUT OUR MASSAGE THERAPY PROGRAM:

"Massage therapy has been essential in providing me with improved physical and emotional health, following the death of my husband and a personal injury. I have been able to resume my career as a nurse with the help of this treatment. In addition, I credit a large portion of success in my grief journey due to the healing power of touch, received through massage therapy,"

Jan Frye Hill, BSN, RN, CCM, 2008

"It has changed my life completely"

Terry D. 2004

"Massage Therapy is an outstanding service for our Sports Medicine and Orthopedic patients".
Walt Curl, MD, Orthopedics
