

Women Faculty
Promotions, Tenure
and Achievements
2013-2014

December 2013

As Director of the Leadership and Mentoring Program for the Office of Women in Medicine and Science (OWIMS), I want to congratulate the women faculty listed within this booklet for their recent achievement(s).

OWIMS co-hosts an annual social to celebrate the achievements of women faculty. The School of Medicine Achievement Social began nine years ago. In 2009, OWIMS and the Women's Forum began collaborating to co-sponsor a cross-campus event. This year, the *fifth* annual cross-campus event was held on January 14, 2014 for women faculty at Wake Forest University.

Please join me in celebrating the recent promotions, honors, awards, and outstanding achievements of the WFSM women faculty members listed within this booklet.

Sonia J. S. Crandall, Ph.D., M.S.
Leadership and Mentoring Program Director
Office of Women in Medicine and Science

2012-2013 Women Faculty Promotions & Tenure

Instructor to Assistant Professor

Alison Gardner, MD, Emergency Medicine
Liliya Yamaleyeva, MD, MS, Surgery, Hypertension & Vascular Research Center
Suma Menon, MD, Internal Medicine, Hospital Medicine
Kyla Shea, PhD, Internal Medicine, Gerontology
Joanne Sandberg, PhD, Family and Community Medicine
Jennifer Davis, MD, Internal Medicine, General Internal Medicine
Tiffany Hiatt, PA-C, Physician Assistant Studies

Assistant Professor to Associate Professor

Cynthia Burns, MD, Internal Medicine, Endocrinology & Metabolism
Laura Dean, MD, Anesthesiology
Leslie Ellis, MD, Internal Medicine, Hematology & Oncology
Adele Evans, MD, FAAP, Surgery, Otolaryngology
Jennifer Helderman, MD, Pediatrics
Denise Houston, PhD, RD, Internal Medicine, Gerontology (with Tenure)
Maggie C.Y. Ng, PhD, Genomics (with Tenure)
Ha Nguyen, PhD, Family Medicine
Amber Reeves-Daniel, DO, Internal Medicine, Nephrology
Anita Saran, MD, Internal Medicine, Nephrology
Carmen Strickland, MD, MPH, Family Medicine
Jasmina Varagic, MD, PhD, Surgery, General

Associate Professor to Professor

Annette Johnson, MD, Radiologic Sciences, Radiology
Katherine Poehling, MD, MPH, Pediatrics (with Tenure)
Kaycee Sink, MD, Internal Medicine, Gerontology (with Tenure)
Gretchen Wells, MD, PhD, Internal Medicine, Cardiology,
Marcia Wofford, MD, Pediatrics

Other

Sarah Berga, MD, Obstetrics & Gynecology, Graduated from the Executive Leadership in Academic Medicine (ELAM) Program
Sonia Crandall, PhD, MS, Physician Assistant Program, Appointed Medical Education Research and Scholarship Director
Debra Diz, PhD, Surgery, Hypertension & Vascular Research Center, Graduated from the Executive Leadership in Academic Medicine (ELAM) Program
Amy McMichael, MD, Dermatology, appointed Department Chair
Lynne Wagenknecht, DrPH, Associate Dean for Interdisciplinary Research
Marcia Wofford, MD, Pediatrics, Appointed Associate Dean for Medical Education

OWIMS Career Development for Women Leaders Training Program Graduates 2012-2013

Martha Alexander-Miller, PhD, Microbiology & Immunology
Laura Bachmann, MD, MPH, Internal Medicine, Infectious Diseases
E. Holly Buttner, PhD, MBA, Bryan School of Business & Economics, UNCG
Purnima Dubey, PhD, Pathology, Tumor Biology
Angela Edwards, MD, Anesthesiology
Cynthia Emory, MD, Surgery, Orthopaedic Surgery
Kristen Hairston, MD, MPH, Internal Medicine, Endocrinology & Metabolism
Allyn Howlett, PhD, Physiology & Pharmacology
Emily Janke, PhD, Office of Research & Economic Development, UNCG
Erika Johnston-MacAnnany, MD, Obstetrics & Gynecology
Molly Keener, MLIS, WFU Z. Smith Reynolds Library
Eve Rapp, PhD, Business & Economics, Salem College
Kami Simmons, JD, WFU School of Law
Erin Sutfin, PhD, PHS-Social Sciences & Health Policy
Janet Tooze, PhD, MPH, PHS-Biostatistical Sciences
Jasmina Varagic, MD, PhD, Surgery, Hypertension & Vascular Research Center
Michelle Voss Roberts, PhD, WFU School of Divinity
Lisa Washburn, MD, Pediatrics

Women Faculty Achievements 2012-2013

Martha Alexander-Miller, PhD, Department of Microbiology & Immunology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Vaccination Strategies to Overcome Immune Deficiencies in Neonates*, funded by the National Institute of Allergy and Infectious Diseases

Nicholette Allred, PhD, Department of Biochemistry:

- Appointed to a Peer-Reviewed Journal Editorial Board
 - Appointed as an Academic Editor at PLoS One
- Principal Investigator on Projects Funded in FY2012-2013
 - *Genetic Architecture of Obesity and Inflammation in Hispanic Americans*, funded by the National Institute of Diabetes and Digestive and Kidney Diseases
 - *A Whole Genome Association Search for Type 2 Diabetes Genes in African Americans*, funded by the National Institute of Diabetes and Digestive and Kidney Diseases

Graça Almeida-Porada, MD, PhD, Wake Forest Institute for Regenerative Medicine:

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Journal of Transplantation & Stem Cell Biology
 - Current Stem Cell Research & Therapy
 - Academic Editor PlosOne
 - Regional North America Editor for Current Stem Cell Research & Therapy
- Served on a Study Section Chair
 - Permanent Member of the Molecular and Cellular Hematology Study Section at NIH
 - NASA Space Biology Review Panel
 - NIH Center for Scientific Review Special Emphasis Panel Member Extracellular RNA in Therapy
- Held a leadership position in Community/Non-Professional Organizations
 - President elect 2015 NC TERMS
- Principal Investigator on Projects Funded in FY2012-2013
 - *Platelet Derived FVIII Gene Therapy of Hemophilia A*, funded by a contract from the Medical College of Wisconsin, Inc.
 - *Cell Therapy for Inflammatory Bowel Disease*, funded by the SENS Foundation
 - *Functional Analysis of the Hematopoietic Niche During Ontogeny*, funded by the National Institutes of Health
 - Cord Blood Expansion Inside a Bioengineered Liver, funded by the National Institutes of Health
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Susan Appt, DVM, Department of Pathology, Section of Comparative Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Role of the Follicle-Depleted Ovary in the Pathogenesis of Chronic Diseases*, funded by the National Institute on Aging
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Elizabeth Arnold, PhD, Department of Psychiatry & Behavioral Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Proposal to Deliver Services for Forsyth County Homeless Outreach Service*, funded by CenterPoint Human Services

Nancy Avis, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Non-Specific Effects of Acupuncture in the Treatment of Hot Flashes*, funded by the National Institute of Health
 - *Postdoctoral Training in Cancer Control Research*, funded by the National Cancer Institute
 - *The Study of Women's Health Across the Nation IV*, funded by a subcontract from the University of Pittsburgh

Laura Bachmann, MD, MPH, Department of Internal Medicine, Section of Infectious Disease:

- Served on a National Panel or Task Force
 - Member of the CDC STD Treatment Guidelines Working Group
 - CDC Division of STD Prevention FOA Consultation, Atlanta, GA
- Principal Investigator on Projects Funded in FY2012-2013
 - *Sexually Transmitted Diseases/Human Immunodeficiency Virus Prevention Training Center Part*, funded by a subcontract from the University of Alabama, Birmingham
 - *MSM Initiative*, funded by a subcontract from Johns Hopkins University
- Other Noteworthy Accomplishment
 - U.S. News and World Report Top Doctor - 2012

Laura Baker, PhD, Department of Internal Medicine, Section on Gerontology

- Principal Investigator on Projects Funded in FY2012-2013
 - *MCI, Insulin and Cholesterol in a Community Sample*, funded by a subcontract from the Seattle Institute for Biomedical and Clinical Research
 - *ADAPT-FS*, funded by a subcontract from the Seattle Institute for Biomedical and Clinical Research

Ann Hiott Barham, MD, Department of Family Medicine

- Principal Investigator on Projects Funded in FY2012-2013
 - *The Southeastern Consortium for Substance Abuse Training (SECSAT)*, funded by a subcontract from Mercer University

Andora Bass, MD, Department of Anesthesiology

- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Bettina Beech, DrPH, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Parents and Children Together Preventing Diabetes (PACT PD)*, funded by the National Institute of Diabetes and Digestive and Kidney Diseases

Christina Bellinger, MD, Department of Internal Medicine, Section on Pulmonary, Critical Care, Allergy and Immunological Medicine

- Principal Investigator on Projects Funded in FY2012-2013
 - *Study of the AeriSeal System for HyPerinflation Reduction in Emphysema (ASPIRE)*, funded by Aeris Therapeutics, LLC

Sarah Berga, MD, Department of Obstetrics & Gynecology

- Elected or Appointed to a National Board
 - Member, University of Virginia Medical Alumni Association Board of Directors
 - Editorial Committee Member, Guidelines for Women's Healthcare, American College of Obstetrics & Gynecology ISGI Board Member
- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Journal of Clinical Endocrinology and Metabolism
 - Menopause
 - American Journal of Obstetrics & Gynecology
 - UpToDate Peer Review Board
 - Endocrinology
 - Biology of Sex Differences
- Elected to a Professional Society Officer Position
 - President (2012-2013) Immediate Past President (2013-2014), The Society for Gynecologic Investigation
 - Executive Committee Member, International Society of Gynecology and Endocrinology
 - Nomination Committee & Special Programs Committee, The Endocrine Society
 - ISIS CVD Network Member, Society for Women's Health Research
- Served as a Study Section Chair
 - Chair, Session on Ovarian and Uterine Function, 2013 Annual Meeting Endocrine Society, SF
- Received a National, Local or Civic Award
 - Best Doctors in America, 2013 and 2014
 - Huldric Kammer Memorial Lectureship in Endocrinology, Portland, Oregon

Jane Boggs, MD, Department of Neurology

- Principal Investigator on Projects Funded in FY2012-2013
 - *Open-Label Study to Assess the Safety and Tolerability of Intravenous Carbamazepine as Short-Term Replacement of Oral Carbamazepine in Adult Patients with Epilepsy*, funded by Lundbeck, Inc.

Jamie Bohl, MD, Division of Surgical Sciences, Department of General Surgery

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Phase II/III Trial of Neoadjuvant FOLFOX w/Selective Use of Combined Modality Chemoradiation versus Preoperative Combined Modality Chemoradiation for Locally Advanced Rectal Cancer Patients Undergoing Low Anterior Resection with Total Mesorectal Excisi*, funded by the Alliance for Clinical Trials in Oncology

Isai Gopalakrishnan Bowline, MD, Department of Internal Medicine, Section on Nephrology

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Three-Period, 58-Week Safety and Efficacy Trial of KRX-0502 (ferric citrate) in Patients with End-Stage Renal Disease (ESRD) on Dialysis*, funded by Keryx Biopharmaceuticals, Inc.
 - *A Long-Term Safety Extension Trial of KRX-0502 (Ferric Citrate) in Patients with End-Stage Renal Disease (ESRD) on Dialysis*, funded by Keryx Biopharmaceuticals, Inc.

Allison Brashear, MD, Department of Neurology:

- Elected or Appointed to a National Board
 - Wake Forest University Board of Directors (Governing Body of Medical Center) (one of two faculty members appointed), served on the: Academic Affairs Committee; Health System Operations and Quality Committee; Audit and Compliance Committee; Finance and Business Affairs Committee;
 - AAN Board of Directors
 - AAN Education Committee Appointed by President of AAN
 - AAN Program Accreditation and Development Subcommittee (PADS), (Presidential appointment)
 - AAN Medical Economics and Management Committee (MEM) (Presidential appointment)
 - AAN – Navigating Healthcare Reform Taskforce
 - ANA Council 2012-14 (Board of Directors)
 - American Board of Psychiatry and Neurology (ABPN) Fellowship committee
- Elected or Appointed to a Community Advisory Board
 - Chair, Women's Fund of Winston-Salem 2011-2013
- Principal Investigator on Projects Funded in FY2012-2013
 - *NINDS- Clinical, Genetic and Cellular Consequences of Mutations in Na, K-ATP1A3*, funded by the National Institute of Neurological Disorders and Stroke
 - *Supplement for Collaborative Activities to Promote Translational Research (CAPTR)*, funded by the National Institute of Neurological Disorders and Stroke
 - *Administrative Supplements: Clinical, Genetic, And Cellular Consequences of Mutations in Na, K-ATPase ATP1A3*, funded by the National Institute of Neurological Disorders and Stroke
 - *Determine if the mutation of ATP1A3 identified in the NIH UDP patient 4694 is a likely cause of ataxia*, funded by the National Heart, Lung and Blood Institute
 - *A phase III, multicentre, Double-Blind, Prospective, Randomized, Placebo Controlled Study, assessing the efficacy and safety of Dysport used for the treatment of lower limb Spasticity or traumatic brain injury*, funded by Ipsen, Inc
 - *A Phase III, Prospective, Multicentre, Open-Label, extension study, to assess the long term Safety and efficacy of repeated treatment Dsyport intramuscular injection in the treatment of lower limb spasticity in adult subjects with spastic hemiparesis due to stroke or traumatic brain injury*, funded by Ipsen, Inc
 - *Dystonia Coalition*, funded by a subcontract from Emory University
 - *Prospective, double-blind, placebo-controlled, randomized, multi-center study with an open-label extension period to investigate the efficacy and safety of NT 201 in the treatment of post-stroke spasticity of the upper limb*, funded by Merz Pharmaceuticals GmbH
 - *A phase III, multicentre, prospective, double-blind, randomized, placebo-controlled study assessing the efficacy and safety of Dysport® intramuscular injections used for the treatment of upper limb spasticity in adult subjects with spastic hemiparesis due to stroke or traumatic brain injury*, funded by IPSEN Group
 - *A phase III, multicentre, prospective, open label extension study to assess the long-term safety and efficacy of repeated treatment of Dysport® intramuscular injections used for the treatment of upper limb spasticity in adult subjects with spastic hemiparesis due to stroke or traumatic brain injury*, funded by Tercica, Inc.

Allison Brashear, MD, Department of Neurology (cont.):

- Principal Investigator on Projects Funded in FY2012-2013
 - *Prospective, double-blind, placebo-controlled, randomized, multi-center study with open-label extension period to investigate the efficacy and safety of NT 201 in the treatment of post-stroke spasticity of the lower limb*, funded by Merz Pharmaceuticals GmbH
 - *CD FLEX: An Open-Label, Non-Inferiority Study Evaluating the Efficacy and Safety of Two Injection Schedules of Xeomin® (incobotulinumtoxinA) [Short Flex vs. Long] in Subjects with Cervical Dystonia with ≤10 Weeks of Benefit from OnabotulinumtoxinA Treatment*, funded by Merz Pharmaceuticals, LLC
 - *A Phase IIIB, Multicentre, Randomised, Double-blind, Placebo-Controlled Study evaluating the efficacy and safety of Dysport Using 2 ml dilution in adults with cervical dystonia*, funded by Ipsen Pharma S.A.S.
 - *A Phase IIIB, prospective, Multicentre, open-label extension study to assess long term safety and Effectiveness of dysport using 2 ml dilution in adults with cervical dystonia*, funded by Ipsen Pharma S.A.S.
 - *Botox treatment in Adult Patients with Post-Stroke Lower Limb Spasticity*, funded by Allergan

Gretchen Brenes, PhD, Department of Psychiatry & Behavioral Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *An RCT of CBT-Telephone for Late-Life GAD*, funded by the National Institute on Mental Health

Tina Brinkley, PhD, Department of Internal Medicine, Section on Gerontology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Cardiac Imaging of Thoracic Fat and Aortic Stiffness in Older High Risk Patients*, funded by the National Institute on Aging
 - *Exercise, Weight Loss, and Arterial Stiffness in Obese, Older Adults*, funded by the American Heart Association, Mid-Atlantic Affiliate

K. Bridget Brosnihan Simmons, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Elected to a Professional Society Officer Position
 - Executive Committee for the Inter-American Society of Hypertension
- Elected or Appointed to a Peer-Reviewed Journal Editorial Board for:
 - Hypertension
 - Current Hypertension Reviews
 - Journal of Clinical Pharmacology
 - American Journal of Physiology, Heart & Circulation
- Served on a Study Section
 - T32 Grant Review: National Institutes of Health: National Heart, Lung & Blood Institute
 - Abstract Reviewer: American Heart Association, Council for High Blood Pressure Research
 - Program Project Review: National Institutes of Health: National Heart, Lung & Blood Institute
 - Chair, AHA Innovative Grant Review, American Heart Association
 - Grant review panel, National Institutes of Health and National Institute of Child Health and Human Development
- Principal Investigator on Projects Funded in FY2012-2013
 - *Ang-(1-7) and prostanoids in normotensive and hypertensive pregnancy*, funded by the National Heart, Lung & Blood Institute
 - *Biochemistry Core*, funded by the National Heart, Lung & Blood Institute
 - *Visual Sonics Vevo Photoacoustics Imaging System*, funded by the National Heart, Lung and Blood Institute
 - *ACE2 Deficiency: A New Model of Maternal and Fetal Growth Restriction*, funded by the National Institute of General Medical Sciences
 - *Vasodepressor Mechanisms in Hypertension: Vasodepressor Mechanisms in Hypertension: ANG-(1-7) And Prostanoids In Normotensive and Hypertensive Pregnancy - Project 5*, funded by the National Institutes of Health
 - *Vasodepressor Mechanisms in Hypertension - Biochemistry Assay Laboratory - Core C*, funded by the National Heart, Lung and Blood Institute
 - *Apelin and Angiotensin II Interactions in human placenta in preeclampsia*, funded by a Surgical Sciences/START Pilot Grant
 - *Cardiovascular Disease Epidemiology Training Grant*, funded by the National Heart, Lung and Blood Institute

K. Bridget Brosnihan Simmons, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center (cont.):

- Principal Investigator on Projects Funded in FY2012-2013
 - *Wake Forest University School of Medicine PREP Scholars*, funded by the NIH National Institute of General Medical Sciences
- Other Noteworthy Accomplishments
 - A figure from the receptor paper on Ang Peptides in the Placenta was selected to be on the cover of *Placenta*

Candice Brown, PhD, Internal Medicine, Molecular Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Epigenetic Regulation of the Murine Estrogen Receptor - B (ERB) Promoter in Brain Aging*, funded by a WFSM Venture Grant

Cynthia Burns, MD, Department of Internal Medicine, Section on Endocrinology & Metabolism

- Other Noteworthy Accomplishments
 - Named the Book Editor for the Endocrinology & Metabolism book for the American College of Physicians Medical Knowledge Self Assessment Program 17(MKSAP17).

Cheryl Bushnell, MD, MHS, Department of Neurology:

- Elected or Appointed to a National Board
 - Chair, Women and Special Populations Committee, Clinical Cardiology, American Heart Association
- Served on a Study Section
 - Scientific Abstract Reviewer, International Stroke Conference
 - Study Section, Stroke Prevention/Intervention Research Program (SPIRP) U54, National Institutes of Health
- Received a National, Local or Civic Award
 - Roxanna Todd Hodges Endowed Lectureship Award from the University of Southern California
- Served on a National Panel or Taskforce:
 - Writing Group: Primary Prevention Guidelines Statement (Vice-Chair) , Fellow of the American Heart Association
 - Writing Group: Guidelines for Cardiovascular Disease Prevention in Women, Fellow of the American Heart Association
 - Writing Group: Stroke Risk Adjustment Consensus, Fellow of the American Heart Association
 - Chair, Writing Group for Prevention of Stroke in Women, American Heart Association
 - Chair, Quality Outcomes Committee of the Stroke Council, American Heart Association
 - Chair, Women and Special Populations Committee, Clinical Cardiology, American Heart Association
- Principal Investigator on Projects Funded in FY2012-2013
 - *International Maternal Newborn Stroke Registry*, funded the World Federation of Neurology
 - *Sex and Subclinical Vascular Disease*, funded the National Institute of Neurological Disorders and Stroke

Kathryn Callahan, MD, Department of Internal Medicine, Section on Gerontology:

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Named to the editorial board for WebGEMS: web based geriatrics education modules.
- Principal Investigator on Projects Funded in FY2012-2013
 - *Improving Geriatrics Quality of Care Through an Interdisciplinary Transitions of Care Teaching Clinic*, funded by the Health Resources and Services Administration
 - ADGAP Geriatrics Education Coordinating Center Web-based Geriatric Education Modules (WebGEMS) on POGOe, funded by a subcontract with Mount Sinai School of Medicine
 - Technical Assistance Program for Geriatrics Education (TAP-G) Enhancements To and Dissemination of the Portal of Geriatrics Online Education (POGOe), funded by a subcontract with Mount Sinai School of Medicine

Melanie Caserta, MD, Division of Radiologic Sciences, Department of Diagnostic Radiology

- Principal Investigator on Projects Funded in FY2012-2013
 - *ACRIN 6695- Ovarian Cancer: Evaluating Perfusion CT as Prognostic Indicator: a Sub-Study of GOG 0262*, funded by the American College of Radiology

Sharon Castellino, MD, MSc, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Resonance Imaging Trial for Heart bioMarkers (RITHM) in AYA Cancer Survivors*, funded by the National Institutes of Health

Che-Ping Cheng, MD, PhD, Department of Internal Medicine, Section on Cardiology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A New Mechanism for Age-Dependent Decline in Cardiac Function in Beta-Adrenergic Reserve*, funded by the American Heart Association –Mid Atlantic

Caroline Chiles, MD, Division of Radiologic Sciences, Department of Diagnostic Radiology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Retrospective Chest X-Ray Image Collection Study for CAD Development*, funded by VuCOMP, Inc.

Laura Coker, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *MIND the Kidneys*, (ancillary study to the SPRINT Trial), funded by a National Heart, Lung and Blood Institute subcontract to Stanford University

Suzanne Craft, PhD, Department of Internal Medicine, Section on Geriatrics & Gerontology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Therapeutic Effect of Intranasal Insulin on Cognition, Function, and AD Biomarkers*, funded by the National Institute on Aging
 - *Glucose Regulation and Memory in Alzheimer's Disease*, funded by the National Institute on Aging
 - *Intranasal Insulin as a Therapeutic Agent in Alzheimer's Disease*, funded by the National Institute on Aging
 - *Oral Glucose Tolerance Test for Alzheimer's Disease Biomarker Development*, funded by a subcontract with Johns Hopkins University

Gail Curtis, MPAs, PA-C, Physician Assistant Studies

- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Suzanne Danhauer, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Held a leadership position in Community/Non-Professional Organizations
 - Advisory Board for Catholic Charities

Natalia Dixon, MD, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *NC Sickle Cell Syndrome Program*, funded by the Department of Health and Human Services

Debra Diz, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Served on a National Panel or Taskforce:
 - NIH Reviewers Reserve, National Institutes of Health
 - Committee for review of NHLBI R25 Cardiovascular Program, North Carolina Central University
 - R35 Special Emphasis Panel, Minority and Training Programs, Review Committee Chair, National Heart, Lung & Blood Institute
 - Chair, Special Review Committee, Teleconferences, National Institutes of Health
 - Medical Chair, Executive Leadership Team for Winston-Salem's American Heart Ball, American Heart Association, Winston-Salem
 - Loan repayment applications, National Institutes of Health
 - Program Project Reviewer: NHLBI
- Elected or Appointed to a National Board:
 - Nominations & Awards Committee Member: Consortium for Southeastern Hypertension Control
 - Executive Committee: Cardiovascular Division: The American Society for Pharmacology & Experimental Therapeutics
 - Appointed HBPR Excellence Award Selection Committee: American Heart Association, Council for High Blood Pressure Research

Debra Diz, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center (cont.):

- Elected or Appointed to a National Board:
 - Member, External Advisory Board, Science, Technology & Engineering Programs, National Science Foundation Historically Black Colleges & Universities (HBCU-UP), Johnson C. Smith University
 - Member, External Advisory Committee for the University of Florida Pepper Center, University of Florida for NIH, NIAA funded Pepper Center
 - Member of Executive Board, Consortium for Southeastern Hypertension Control
- Elected or Appointed to a Community Advisory Board:
 - Executive Committee Member: Minority Access for Research Centers – WSSU
 - Member of Executive Board, Consortium for Southeastern Hypertension Control
- Elected or Appointed to Peer-Reviewed Journal Editorial Board
 - Current Hypertension Reviews
 - Current Hypertension Reports
 - Frontiers in Integrative Physiology (Associate Editor)
- Principal Investigator on Projects Funded in FY2012-2013
 - *Vasodepressor Mechanisms in Hypertension*, funded by the National Institutes of Health
 - *Vasodepressor Mechanisms in Hypertension: Brain ANG-(1-7) vs. ANG II: Arterial pressure, baroreflex and Metabolic control - Project 4*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Administrative and Biostatistics Core A*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-7) Inhibition of Hypertrophy % Fibrosis - Project 2*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Congenic-Transgenic Animal Resource Facility - CoreD*, funded by the National Heart, Lung and Blood Institute
 - *Excellence in Cardiovascular Sciences Summer Program*, funded by the National Institutes of Health
 - *Autonomic Instability as an Unrecognized Cause of Chronic Nausea in Children*, funded by the American Heart Association
 - *Elevated Supine MAP in Children with Cardiovascular Dysautonomia*, funded by a subcontract with the University of Colorado
 - *Claude D Pepper Older Americans Independence Center of Wake Forest University School of Medicine*, funded by the National Institute on Aging
 - *Prenatal Events - Postnatal Consequences: Antenatal Steroid Exposure And Neural Control Of Blood Pressure (Project3)*, funded by the National Institute of Child Health and Human Development
 - *Wake Forest University School of Medicine PREP Scholars*, funded by the NIH National Institute of General Medical Sciences
- Other Noteworthy Accomplishments
 - Completed Executive Leadership in Academic Medicine Program
 - A figure from the receptor paper on Ang Peptides in the Placenta was selected to be on the cover of *Placenta*

Marcie Drury Brown, MD, Department of Pediatrics:

- Held a leadership position in Community/Non-Professional Organizations
 - Elected to the Piedmont Triad JDRF's Chapter Board of Directors
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Purnima Dubey, PhD, Department of Pathology:

- Served as a Study Section Chair
 - Department of Defense, Prostate Cancer Research Program, Collaborative Undergraduate HBCU Student Summer Training Program
 - Department of Defense, Prostate Cancer Research Program, Training-Clinical and Experimental Therapeutics

Cynthia Emory, MD, Division of Surgical Sciences, Department of Orthopaedic Surgery:

- Elected or Appointed to a National Board
 - Appointed to the Musculoskeletal Transplant Foundation Medical Board of Trustees

Adele Evans, MD, FAAP, Pediatrics:

- Elected to a Professional Society Officer Position
 - Appointed to the American Society for Pediatric Otolaryngology Education Committee
- Principal Investigator on Projects Funded in FY2012-2013
 - *Development of a tracheotomy education program for EMT/Paramedics*, funded by the the North Carolina Emergency Medicine Services
- Held a leadership position in Community/Non-Professional Organizations
 - Served as Co-Chair of the North Carolina Walk4Hearing
- Other Noteworthy Accomplishments
 - Coordinator of the Wake Forest – Hanes Brands Viviendo Verde Surgical Mission trips to the Dominican Republic.

Cristin Ferguson, MD, Division of Surgical Sciences, Department of Orthopaedics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Impact of Oxygen Tension on Human Meniscus Tissue Engineering*, funded the National Institute of Arthritis and Musculoskeletal and Skin Diseases

Andrea Fernandez, MD, Department of Obstetrics & Gynecology

- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Capri Foy, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Prosocial Behavior and Volunteerism to Promote Physical Activity in Older Adults*, funded the National Heart, Lung and Blood Institute
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Jane Foy, MD, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *School Health Alliance for Forsyth County*, funded the School Health Alliance

Cristina Furdui, PhD, Department of Internal Medicine, Section on Molecular Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Analysis of Redox Modulated Signaling Networks in Response to Ionizing Radiation*, funded the National Cancer Institute

Patricia Gallagher, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Served on a National Panel or Task Force
 - Molecular Signaling 2. Unified Peer Review Study Group, American Heart Association
 - Special Emphasis Panel, "NIH Support for Conferences and Scientific Meetings", National Heart, Lung & Blood Institute
 - R21/R03 Omnibus Review, National Cancer Institute
- Principal Investigator on Projects Funded in FY2012-2013
 - *Effect of IT-600176 on Blood Pressure, End-Organ Damage, and the Renin-Angiotensin system in Ang II-induced Hypertension*, funded by Targacept
 - *Inhibition of Metastatic Breast Cancer by Angiotensin-(1-7)*, funded by the Susan G. Komen Breast Cancer Foundation
 - *Prevention of Human Tumor Growth by Muscadine Grape Seed/Skin Extracts*, funded by Nature's Pearl
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-7) Inhibition of Hypertrophy % Fibrosis - Project 2*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Brain ANG-(1-7) vs. ANG II: Arterial pressure, baroreflex and Metabolic control - Project 4*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Cellular and Molecular Biology - Core B*, funded by the National Heart, Lung and Blood Institute

Patricia Gallagher, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center (cont.):

- Other Noteworthy Accomplishment
 - Invited chapter for Handbook of Biologically Active Peptides 2013 – “Angiotensin II/Angiotensin-(1-7) in Cancer”
 - A figure from the receptor paper on Ang Peptides in the Placenta was selected to be on the cover of *Placenta*

Karen Gerancher, MD, Department of Obstetrics & Gynecology

- Held a leadership position in Community/Non-Professional Organization
 - Community Advisory Board, Forsyth Nurse-Family Partnership
- Principal Investigator on Projects Funded in FY2012-2013
 - *Bedsider for Postpartum Contraceptive Counseling*, funded by the American Congress of Obstetricians and Gynecologists

Sabina Gesell, PhD, Division of Public Health Sciences, Department of Social Sciences and Health Policy

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Global Journal of Epidemiology and Public Health
- Principal Investigator on Projects Funded in FY2012-2013
 - *Building Social Networks to Achieve Healthy Weight Gain During Pregnancy*, funded by the Eunice Kennedy Shriver National Institute of Child Health and Development

Emily Gower, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Secondary Analysis of Four Trichiasis Surgery Clinical Trials to Inform Management Strategies*, funded the National Eye Institute
 - *Medicare Claims Analysis of Safety Events Among Patients Treated with Lucentis or Avastin*, funded Genentech, Inc.
 - *Manual Dexterity Pilot Study*, funded a subcontract with Helen Keller International

Leanne Groban, MD, Department of Anesthesiology:

- Elected or Appointed to Peer-Reviewed Journal Editorial Board
 - Anesthesia Analgesia
 - Anesthesiology
 - Journal of Clinical Anesthesia
 - Hypertension
 - Journal of Anesthesia and Pain Management
 - Cardiovascular Diabetology
 - Echocardiography
- Served on a National Panel or Taskforce:
 - Grant Reviewer, American Federation on Aging Research
 - Geriatrics Anesthesia Committee, American Society of Anesthesiologists
- Elected or Appointed to a National Board:
 - Board of Directors for the Consortium of Southeastern Hypertension Control
- Served on a Study Section
 - NIH-ICER Study Section
- Received a National, Local or Civic Award
 - Anesthesia Patient Safety Foundation Award, Anesthesia Patient Safety Foundation
 - Ellison C. Pierce, Jr., MD Merit Award, American Society of Anesthesiologists
- Principal Investigator on Projects Funded in FY2012-2013
 - *Estrogen, Angiotensin-(1-7), and Diastolic Function*, funded the National Institute on Aging
 - *The Conditional GPR30 Knockout Mouse: A Model of Female-Specific Cardiac Aging*, funded the National Institute on Aging
 - *Preoperative Assessment of Nutritional Status*, funded the Translational Science Institute /Center for Integrative Medicine, Wake Forest Health Sciences
 - *Interplay Between Estrogen, GPR30 and Chymase/RAS in Diastolic Function*, funded by the National Institute on Aging
 - *Does Preoperative Assessment of Nutritional Status, Mobility and Frailty Among Geriatric Patients Predict Early Postoperative Morbid Events?*, funded by the Anesthesia Patient Safety Foundation/ASA endowed research award/Translational Science Center (WFU)/Center for Integrative Medicine

TanYa Gwathmey-Williams, MS, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Elected to a Professional Society Officer Position
 - Training & Diversity Committee, American Physiological Society
- Served on a National Panel or Task Force
 - Abstract Grader, American Heart Association Council for Epidemiology, Nutrition, Physical Activity and Metabolism
 - Special Emphasis Panel Scientific Review Group for T35 Medical Student Research Training Grant, NHLBI
 - Special Emphasis Panel Reviewer, Sequencing Centers, NHGRI
- Received a National, Local or Civic Award
 - Epidemiology and Cardiovascular Disease Prevention Fellowship, American Heart Association
 - Early Career Science Advocacy Fellowship, American Physiological Society
 - Outstanding Research Award, Endocrine Society
- Principal Investigator on Projects Funded in FY2012-2013
 - *The Intra-renal Renin Angiotensin System in African American Adolescents*, funded by the American Heart Association.
 - *Vasodepressor Mechanisms in Hypertension: Biochemistry Assay Laboratory - Core C*, funded by the National Heart, Lung and Blood Institute
 - *Wake Forest University School of Medicine PREP Scholars*, funded by the NIH National Institute of General Medical Sciences
 - *IRACDA Prime Post-doctoral Training Program*, funded by the NIH National Institute of General Medical Sciences

Karen Haas, PhD, Department of Microbiology & Immunology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Regulation of B-1b Cell Antibody Production to Carbohydrate Tumor Antigens*, funded by the American Cancer Society
 - *The Link Between C4 Deficiency, Streptococcus Pneumoniae and Autoimmunity*, funded by the Arthritis Foundation Mid-Atlantic Region

Kristen Hairston, MD, MPH, Department of Internal Medicine, Section on Endocrinology & Metabolism:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Visceral Adipose Tissue as Mediator between Lifestyle Factors and Cardiometabolic Risk*, funded by the Department of Health & Human Services
 - *TECOS: A Randomized, Placebo Controlled Clinical Trial to Evaluate Cardiovascular Outcomes After Treatment with Sitagliptin in Patients with Type 2 Diabetes Mellitus and Inadequate Glycemic Control on Mono- or Dual Combination Oral Antihyperglycemic Ther*, funded by the Merck & Company, Inc.

Jennifer Helderman, MD, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Trial of Late SURfactant (TOLSURF) to Prevent BPD*, funded by a subcontract with the University of California, San Francisco

Amy Hildreth, MD, FACS, Division of Surgery

- Elected or Appointed to a National Board:
 - Appointed to the newly formed AAMC Council of Faculty & Academic Societies (CFAS), and appointed to the Organization's Administrative Board.

Denise Houston, PhD, Department of Internal Medicine, Section on Gerontology:

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - *Journal of Gerontology: Medical Sciences*
- Received a National, Local or Civic Award
 - Received the 2013 Early Investigator in Clinical Sciences Award, Wake Forest School of Medicine
- Principal Investigator on Projects Funded in FY2012-2013
 - *Trial of vitamin D supplementation and neuromuscular function in older adults*, funded by the National Institutes of Health

Denise Houston, PhD, Department of Internal Medicine, Section on Gerontology (cont.):

- Principal Investigator on Projects Funded in FY2012-2013
 - *Dietary protein and change in physical function in black and white older adults*, funded by the National Institutes on Aging
 - Evaluation of an Oral Nutritional Supplement Containing AN 777 in Older Hospitalized Patients, funded by Abbott Laboratories
 - A Randomized Double Blinded Controlled Trial of an Oral Nutritional Supplement Containing AN 777 in Older Hospitalized Patients, funded by Abbott Laboratories

Allyn Howlett, PhD, Department of Physiology & Pharmacology:

- Elected or Appointed to a National Board:
 - Co-Chair of the International Union of Pharmacologists Nomenclature Committee, Subcommittee on Cannabinoid Receptors
- Elected or Appointed to Peer-Reviewed Journal Editorial Board
 - Editorial Board of the Journal of Biological Chemistry, American Society for Biochemistry and Molecular Biology
- Principal Investigator on Projects Funded in FY2012-2013
 - *Cannabinoid Receptors in Neuronal Cells and Brain*, funded by the National Institute on Drug Abuse
 - *Center for the Neurobiology of Addiction Treatment*, funded by the National Institute of General Medical Sciences
 - IRACDA Prime Post-doctoral Training Program, funded by the NIH National Institute of General Medical Sciences

Christina E. Hugenschmidt, PhD, Department of Internal Medicine, Section on Gerontology & Geriatric Medicine

- Principal Investigator on Projects Funded in FY2012-2013
 - *Cognitive/Brain Effects of Adding Weight Loss to Exercise in Obese Older Adults*, funded by the American Federation for Aging Research

Tamison Jewett, MD, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Medical Genetic Services*, funded the NC Department of Health & Human Services
 - *Prevalence and Traits of FASD in the U.S. Population: Evidence from Schools*, funded by a subcontract with the University of North Carolina – Chapel Hill

Annette Johnson, MD, MS, Department of Radiology:

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Journal of the American College of Radiology
- Elected or Appointed to a National Board:
 - American Board of Radiology – Non-Interpretive Skills Committee

Erika Johnston-MacAnnany, MD, Department of Obstetrics & Gynecology:

- Other Noteworthy Accomplishment
 - Best Doctors in America, 2013 and 2014

Sara Jones, PhD, Department of Physiology & Pharmacology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Center for the Neurobiology of Addiction Treatment - Proj 2 Jones*, funded the National Institute on Drug Abuse
 - *Animal Models of Cocaine Addiction*, funded the National Institute on Drug Abuse
 - *Ethanol, Stress and Dopamine*, funded the National Institute on Alcohol Abuse and Alcoholism
 - *Methylphenidate, Serotonin and Dopamine Interactions*, funded the National Institute on Drug Abuse
 - *Pharmacology of Dopamine Release by Amphetamine*, funded by a subcontract with the University of Michigan

Kylie Kavanagh, DVM, Department of Pathology, Section on Comparative Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Chaperone Proteins in a Primate Model of Age-Related Metabolic Disease*, funded the National Institutes of Health

Nancy King, JD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Trans CEER Coordination Component of the Center for Genomics and Society*, funded by a subcontract with the University of North Carolina-Chapel Hill

Heidi Klepin, MD, Department of Internal Medicine, Section on Hematology & Oncology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Clinical and Biological Predictors of Chemotherapy Toxicity in Older Adults*, funded a subcontract with the City of Hope Comprehensive Cancer Center
 - *Minimizing Physical Function Decline in Older Adults*, funded the Gabrielle's Angel Foundation for Cancer Research
 - *Developing a Predictive Model to Anticipate Chemotherapy toxicity in older adults with breast cancer*, funded a subcontract with the City of Hope Comprehensive Cancer Center
 - *Minimizing Physical Function Decline in Older Adults Receiving Chemotherapy*, funded the National Institute on Aging

Mary Ann Knovich, MD, Department of Internal Medicine, Section on Hematology & Oncology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Prevention of the Complications of Bleeding Disorders Through HTCsl*, funded by a subcontract from the University of North Carolina-Chapel Hill
 - *A Phase II, Single-Blind, Randomised, Placebo-Controlled Trial to Study the Efficacy and Safety of Anti-von Willebrand Factor Nanobody Administered as Adjunctive Treatment to Patients with Acquired Thrombotic Thrombocytopenic Purpura*, funded by Pharmaceutical Research Associates International

Julia Lawrence, DO, Department of Internal Medicine, Section on Hematology & Oncology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Effects of Fish Oil on Lipid Metabolites in Breast Cancer*, funded by the American Institute for Cancer Research

Yongmei Liu, MD, PhD, Division of Public Health Sciences, Department of Epidemiology & Prevention:

- Principal Investigator on Projects Funded in FY2012-2013
 - *CHARGE Consortium: Gene Discovery for CVD and Aging*, funded by a subcontract with the University of Washington
 - *Epigenomics of Human Health and Disease*, funded by the National Institutes of Health
 - *Genetic Determinants of Visceral Adiposity*, funded by the National Institute on Aging
 - *Prospective Meta- Analyses of Drug-Gene Interactions: CHARGE GWAS Conso*, funded by a subcontract with the University of Washington

Mary Lyles, MD, Department of Internal Medicine, Section on Gerontology:

- Held a leadership position in Community/Non-Professional Organizations
 - Appointed to the Board of Directors of Hospice and Palliative Care of Winston Salem

Gail Marion, PhD, PA-C, Department of Family & Community Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Implementing a Culturally Sensitive Health Literacy Curriculum for Medical Students*, funded by the Department of Health and Human Services (DHHS), Health Resources and Services Administration

Amy McMichael, MD, Department of Dermatology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Multicenter, Randomized, Double-Blind, Parallel-Group Study to Evaluate the Safety and Efficacy of Bimatoprost Solution 0.03 %, 0.1%, and 0.3% Compared with Vehicle in Men with Androgenic Alopecia*, funded by Allergan Sales, LLC

Heather Mertz, MD, Department of Obstetrics & Gynecology

- Served on a National Panel or Task Force
 - Exam Coordinator, Subspecialty Board Certification Exam, Maternal Fetal Medicine, American Board of Obstetrics and Gynecology
- Principal Investigator on Projects Funded in FY2012-2013
 - *CenteringPregnancy at the Prior Preterm Birth Clinic*, funded by the March of Dimes Birth Defects Foundation
 - *The Prior Preterm Birth Clinic (PPBC) at Wake Forest University Health Sciences (WFUHS)*, funded by the Anne L. George H. Clapp Charitable and Education Trust
- Other Noteworthy Accomplishments
 - Best Doctors in America, 2013-2014

Linda Metheny-Barlow, PhD, Department of Radiation Oncology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Regulation of Vascular Stabilization by Connexin 43*, funded by the National Cancer Institute
 - PPARs and Radiation-Induced Brain Injury, funded by the National Cancer Institute
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Deborah Meyers, PhD, Center for Genomics & Personalized Medicine Research:

- Principal Investigator on Projects Funded in FY2012-2013
 - *New Approaches for Empowering Studies in Populations of African Descent*, funded by a subcontract with Johns Hopkins University
 - Genomics of Lung Function and Asthma Severity in African Americans, funded by a subcontract with Emory University
 - Scholars' Program in the Genetics and Genomics of Lung D, funded by the National Heart, Lung and Blood Institute

Anna Miller, MD, Division of Surgical Sciences, Department of Orthopaedic Surgery:

- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Carolanne Milligan, PhD, Department of Neurobiology & Anatomy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Motor Neuron Disease in Mouse Models of ALS: Where Does the End Begin?*, funded by the National Institute of Neurological Disorders and Stroke
 - *Studies of Motoneuron Death-Insight Into the SMAs and ALS*, funded by the National Institutes of Health
 - Jointly Sponsored NIH Predoctoral Training Program in Neuroscience, funded by the National Institutes of Health
 - Administration of Hsp70 Maintains Muscle Innervation in the SOD1 Mouse - A New Therapeutic Approach?, funded by the Blazeman Foundation

Savithri Nageswaran, MBBS, DCH, MPH, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Community-Based Care Coordination for Children With Complex Chronic Conditions*, funded by the Health Resources and Services Administration
 - *Home Health Nursing Services in the Care of Children with Serious Illnesses*, funded by the National Palliative Care Research Center
 - *Enhancing the System of Care for Children with Complex Chronic Conditions*, funded by the Health Resources and Administration
 - *Subspecialist Access Program for Children with Complex Chronic Conditions*, funded by the Community Care of North Carolina
 - *Integrated Care of Children with Complex Chronic Conditions*, funded by the Kulynych Foundation
 - *Healthcare Providers Roles in Decision Making in Pediatric Palliative Care*, funded by the Department of Health & Human Services

Michelle Naughton, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *CALGB Health Outcomes Subcommittee Co-Chair Activities*, funded by the Cancer and Leukemia Group B Foundation

Maggie C.Y. Ng, PhD, Center for Diabetes Research, Center for Genomics and Personalized Medicine Research:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Genetic Determinants of Adiposity in African Americans*, funded by the National Institute on Diabetes, Digestive and Kidney Diseases

Ha Nguyen, PhD, MPH, Department of Family & Community Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Pesticide Exposure and Age-Related Changes in Cognitive Function*, funded by the National Institute of Environmental Health Sciences

Barbara Nicklas, PhD, Department of Internal Medicine, Section on Gerontology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Effect of Fat Loss on Functional and Cardiovascular Benefits of Aerobic Exercise*, funded by the National Heart, Lung and Blood Institute
 - *Loss of Fat Tissue and Functional Responses to Exercise in Older, Obese Adults*, funded by the National Institute on Aging

Marina Nunez, MD, PhD, Department of Internal Medicine, Section on Infectious Diseases:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Phase III, Randomized, Double-Blind and Placebo-Controlled Study of Once Daily BI 201335 120 mg for 24 Weeks and BI 201335 240 mg for 12 Weeks in Combination with Pegylated Interferon- α and Ribavirin in Treatment-Naive*, funded by Boehringer Ingelheim Pharmaceuticals Inc
 - *Safety and Efficacy of 240 mg BI 201335 Once Daily in Combination with Pegylated Interferon Alpha 2a and Ribavirin for Treatment of Chronic Hepatitis C (HCV)*, funded by Boehringer Ingelheim Pharmaceuticals Inc
 - *Non-Interventional, Prospective, Cohort Study of the Effectiveness, Safety, and Utilization of Two Approved Pegylated Interferon-Based Direct Acting Antiviral Triple Therapies in the Management of Genotype 1 Chronic Hepatitis C in Routine Clinical Practice*, funded by the Covance, Inc.

Jill Ohar, MD, Department of Internal Medicine, Pulmonary, Critical Care, Allergy and Immunological Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Randomized, Double-Blind, Parallel Group, Multicenter Study of the Effects of Fluticasone Propionate/Salmeterol Combination Product 250/50mcg BID (ADVAIR DISKUS) in Comparison to Salmeterol 50mcg BID (SEREVENT DISKUS) on the Rate of Exacerbations of Ch*, funded by GlaxoSmithKline
 - *A Single-Center Exploratory Study to Evaluate FeNo Using the NIOX MINO Device in COPD Patients Aged Greater Than or Equal to 40 Years During and Following Recovery from a COPD Exacerbation*, funded by Aerocrine Inc. USA

Karen Oles, PharmD, PhD, Department of Internal Medicine, Section on General Internal Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Collaboration Among Physicians and Pharmacists to Improve Outcomes Now--Hypertension*, funded by a subcontract with the University of Iowa

Elizabeth Palavecino, MD, Department of Pathology

- Principal Investigator on Projects Funded in FY2012-2013
 - *Evaluation of the Clinical Performance of the iNAT System for the Detection of Influenza A&B*, funded by Alere Scarborough, Inc.

Carolyn Pedley, MD, Department of Internal Medicine, Section on General Internal Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *TECOS: A Randomized, Placebo Controlled Clinical Trial to Evaluate Cardiovascular Outcomes After Treatment with Sitagliptin in Patients with Type 2 Diabetes Mellitus and Inadequate Glycemic Control on Mono- or Dual Combination Oral Antihyperglycemic Ther*, funded by Merck & Company, Inc.

Snezana Petrović, MD, PhD, FASN, Department of Physiology & Pharmacology

- Served on a National Panel or Task Force
 - Manuscript reviews, American Journal Psychology, Comparative Physiology and Biochemistry, BioMedCentral
 - Co-Chair, Renal Section, Focused topic: Regulation of Transport Proteins in Kidney Intercalated Cells, Experimental Biology
- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Frontiers in Renal and Epithelial Physiology
 - American Journal of Physiology

Emily Poole Pharr, MD, Department of Neurology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Multidisciplinary Approach to Improve MS Patient's Quality of Life*, funded by the Multiple Sclerosis Foundation
 - *An Extension Protocol for Multiple Sclerosis Patients who Participated in Genzyme Sponsored Studies of Alemtuzumab (Protocol # CAMMS03409; Also Known as the CARE-MS Extension Study)*, funded by Genzyme
 - *A 12-Month, Randomized, Rater- and Dose-Blinded Study to Compare the Efficacy and Safety of Fingolimod 0.25 mg and 0.5 mg Administered Orally Once Daily with Glatiramer Acetate 20 mg Administered Subcutaneously Once Daily in Patients with Relapsing*, funded by PPD Development, LLC
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Katherine Poehling, MD, MPH, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *The Movement of influenza Virus in Human Population*, funded by the National Institute of Allergy and Infectious Diseases

Leslie Poole, PhD, Department of Biochemistry:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Mechanistic Studies of Alkyl Hydroperoxide Reductase and Related Redox Proteins*, funded by the National Institute of General Medical Sciences
 - *Structural and Computational Biophysics Training Program*, funded by the National Institutes of Health

Mercedes Porosnicu, MD, Department of Internal Medicine, Section on Hematology & Oncology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *A Randomized, Double-Blind, Phase 2 Safety Study of Cetuximab, Using ImClone Versus Boehringer Ingelheim Manufacturing Processes, in Combination with Cisplatin or Carboplatin and 5-Fluorouracil in the First-Line Treatment of Patients with Locoregionally*, funded by Lilly USA, LLC
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Linda Porrino, PhD, Department of Physiology & Pharmacology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Center for the Neurobiology of Addiction Treatment - Proj 2 Porrino*, funded by the National Institute on Drug Abuse

Sarah Quandt, PhD, Division of Public Health Sciences, Department of Epidemiology & Prevention:

- Received a National, Local or Civic Award
 - Established Clinical Investigator Award from Wake Forest School of Medicine
 - Lucia Russell Briggs Distinguished Achievement Award, Lawrence University
- Elected or Appointed to a National Board
 - Chair, External Scientific Advisory Board, NIDCR Centers to Reduce Disparities in Oral Health
 - Member, Scientific Advisory Board, NIEHS Environmental Health Center, Rutgers University and University of Medicine and Dentistry—Robert Wood Johnson Medical School, Piscataway, New Jersey
 - Member, National Institute of Dental and Craniofacial Research Health Disparities Roundtable, National Institute of Dental and Craniofacial Research

Sarah Quandt, PhD, Division of Public Health Sciences, Department of Epidemiology & Prevention (cont.):

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Associate Editor, BMC Complementary and Alternative Medicine
 - Journal of Applied Gerontology
 - American Journal of Industrial Medicine
 - American Journal of Health Behavior
 - Journal of Nutrition in Gerontology and Geriatrics
- Elected to a Professional Society Officer Position
 - International Association for Dental Research: Sec/Treas of Nutritional Research Section
- Elected or Appointed to a Community Advisory Board
 - Understanding Forsyth County's Food System, Winston Salem Foundation
 - Sustainable + Ardmore
 - El Buen Pastor Latino Community Services
- NIH Study Section Charter Member
 - Community Influences on Health Behavior (CIHB)
- Principal Investigator on Projects Funded in FY2012-2013
 - *Occupational Injuries Among Immigrant Poultry Workers: Development and Progression*, funded by the National Institute for Occupational Safety and Health
 - *Reducing Pesticide Exposure in Farmworker Families: Research to Practice (R18)*, funded by the National Institute for Occupational Safety and Health
 - *Dietary and Physical Activity Patterns of Latino Farmworker Children (R01)*, funded by the National Institute of Child Health and Human Development
 - *Rural Elders' Diabetes Self-Management: Development of Common Sense Model Inventory (R01)*, funded by the National Institute on Aging
 - *Rural Older Adults: Oral Health, Diet & Quality of Life (R01)*, funded by the National Institute of Dental and Craniofacial Research

Beth Reboussin, PhD, Division of Public Health Sciences, Department of Biostatistical Sciences:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Comorbid Patterns with Alcohol Use Disorders*, funded by a subcontract with Johns Hopkins University
 - *Nonstandard Maternal Work Schedules & Child Health in Impoverished Families*, funded by a subcontract with Oklahoma State University

Maria Sam, MD, Department of Neurology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Maternal Outcomes and Neurodevelopmental Effects of Antiepileptics*, funded by a subcontract with Emory University
 - *Double-Blind, Randomized, Historical Control Study of the Safety and Efficacy of Eslicarbazepine Acetate Monotherapy in Subjects with Partial Epilepsy Unresponsive to Current Antiepileptic Drugs*, funded by the Sepracor Inc.
 - *Long-Term Eslicarbazepine Acetate Extension Study*, funded by the Sepracor Inc.
 - *A Randomized, Double-Blind, Placebo-Controlled, Multicenter, Parallel-Group Study To Evaluate The Efficacy And Safety Of Brivaracetam In Subjects (≥16 TO 80 Years Old) With Partial Onset Seizures*, funded by the Pharmaceutical Research Associates International
 - *An Open-Label, Multicenter, Follow-up Study to Evaluate the Long-Term Safety and Efficacy of Brivaracetam Used as Adjunctive Treatment in Subjects Aged 16 Years or Older with Epilepsy*, funded by the Pharmaceutical Research Associates International

Aarti Sarwal, MD, Department of Neurology

- Served on a National Panel or Task Force
 - Elected to Executive committee of Association of Indian Neurologists in America(AINA)
- Received a National, Local or Civic Award
 - Received Outstanding Young Physician Alumni award from University of Missouri, Columbia Alumni Association
 - Posters at 2013 Annual Meeting of American Academy of Neurology, San Diego, CA selected by the Science Committee for special notation to highlight as a significant advance based on animal research. Research focused on use of neuromuscular ultrasound to assess diaphragm structure and function in a canine model of myotubular myopathy
- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Katherine Holzbaur Saul, PhD, Division of Radiologic Sciences, Department of Biomedical Engineering:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Upper Limb Kinematics and Muscular Compensation During Activities of Daily Living in Older Adults with Rotator Cuff Impairment*, funded by the National Science Foundation

Susan Sergeant, PhD, Department of Biochemistry:

- Principal Investigator on Projects Funded in FY2012-2013
 - *The Wake Forest Center for Botanical Lipids and Inflammatory Disease Prevention - Core B*, funded by the National Institute of Complementary and Alternative Medicine

Mary Shea, PhD, Department of Internal Medicine, Section on Gerontology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Vitamin K and the Progression Coronary Artery Calcification*, funded by the American Heart Association
 - *Identifying Vitamin K Dependent Pathways in Osteoarthritis Progression*, funded by the National Institute on Aging

Carol Shively, PhD, Department of Pathology, Section on Comparative Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Depression and Coronary Artery Atherosclerosis in Premenopausal Primates*, funded by the National Heart, Lung and Blood Institute

Sally Shumaker, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Testosterone Cognitive Testing Coordinating Center*, funded by a subcontract with the University of Pennsylvania
 - *Women's Health Initiative Extension 2010-2015*, funded by the National Heart, Lung and Blood Institute

Kaycee Sink, MD, MAS, Department of Internal Medicine, Section on Gerontology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Alzheimer's Disease Neuroimaging Initiative 2 (ADNI 2)*, funded by a subcontract with the University of California – San Diego
 - *Multi-Center Trial to Evaluate Home-Based Assessment Methods for Alzheimer's Disease Prevention Research in People Over 75 Years old*, funded by UC Regents

Beverly Snively, PhD, Division of Public Health Sciences, Department of Biostatistical Sciences

- Other Noteworthy Accomplishment
 - Accepted to the 2013-2014 Career Development for Women Leaders Program

Mary Sorci-Thomas, PhD, Department of Pathology, Comparative Medicine:

- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Arteriosclerosis, Thrombosis, and Vascular Biology
 - Journal of Lipid Research
- Served on a Study Section
 - NIH, NHLBI, Program Project Review Committee
 - NIH, NHLBI, Artherosclerosis, Inflammation and Cardiovascular Systems (AICS) Study Section
 - NIH, NHLBI, Vascular Cell and Molecular Biology (VCMB) Study Section
- NIH Study Section Charter Member:
 - Charter Member of the NIH, NHLBI, Atherosclerosis, Inflammation & Cardiovascular Science Study Section
- Principal Investigator on Projects Funded in FY2012-2013
 - *Project 4 Leader: "Structure: Function Relationships of ApoA-I"* (Program Project Entitled: "Lipoprotein Metabolism in Atherosclerosis"- *Rudel*), funded by the National Heart, Lung & Blood Institute
 - *Inflammation and Inhibition of Cholesterol Transport*, funded by the National Heart, Lung & Blood Institute
 - *Cholesterol and Lymphatic Transport of Molecules and Cells*, funded by a subcontract with the Washington University – St. Louis
 - *T Regulatory Lymphocytes, HDL Function, and Atherosclerosis*, funded by the La Jolla Institute for Allergy and Immunology
 - *Biophysics of HDL Dysfunction*, funded by a subcontract with the Medical College of Wisconsin

Jielin Sun, PhD, Center for Genomics and Personalized Medicine Research:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Gene-hormone Interaction and Risk of Breast Cancer*, funded by the National Cancer Institute

Erin Sutfin, PhD, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Implementing Evidence-Based Tobacco Cessation Strategies in Campus Health Clinics*, funded by the National Cancer Institute

E. Ann Tallant, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Elected to a Professional Society Officer Position
 - Vice-Chairperson, Membership and Communications Committee, American Heart Association, Council for High Blood Pressure Research
 - Webmaster, Leadership Committee, American Heart Association, Council for High Blood Pressure
 - Research Committee, American Heart Association
 - Mentor, Training Committee, American Heart Association, Council for High Blood Pressure
 - Member, Training Committee, American Physiological Society, Cardiovascular Section
 - Liaison, Research Committee, American Heart Association, MidAtlantic Affiliate
- Served on a National Panel or Taskforce:
 - Abstract Grader, American Heart Association, Council for High Blood Pressure Research
 - Special Emphasis Panel, "NIH Support for Conferences and Scientific Meetings", National Heart, Lung & Blood Institute
 - Review Panel – K01 and R25 RFAs to Promote Faculty and Trainee Diversity, National Heart, Lung & Blood Institute
- Principal Investigator on Projects Funded in FY2012-2013
 - *Inhibition of Metastatic Breast Cancer by Angiotensin-(1-7)*, funded by the Susan G. Komen Breast Cancer Foundation
 - *Effect of IT-600176 on Blood Pressure, End-Organ Damage, and the Renin-Angiotensin system in Ang II-induced Hypertension*, funded by Targacept, Inc.
 - *Prevention of Human Tumor Growth by Muscadine Grape Seed/Skin Extracts*, funded by Nature's Pearl
 - *Vasodepressor Mechanisms in Hypertension: Cellular and Molecular Biology - Core B*, funded by the National Heart, Lung and Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Brain ANG-(1-7) vs. ANG II: Arterial pressure, baroreflex and Metabolic control - Project 4*, funded by the National Heart, Lung and Blood Institute
 - *Excellence in Cardiovascular Sciences Summer Research*, funded by the Department of Health & Human Services
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-7) Inhibition of Hypertrophy % Fibrosis - Project 2*, funded by the National Heart, Lung and Blood Institute
- Other Noteworthy Accomplishment
 - Invited chapter for Handbook of Biologically Active Peptides 2013 – "Angiotensin II/Angiotensin-(1-7) in Cancer"

Kristi Tucker, MD, Department of Neurology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Clot Lysis Evaluating Accelerated Resolution of IVH Phase III (Clear III)*, funded by a subcontract with Johns Hopkins University

Vidula Vachharajani, MD, Department of Anesthesiology:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Bioenergetic and Epigenetic Reprogramming by Obesity in Sepsis*, funded by the National Institute of General Medical Sciences

Jasmina Varagic, MD, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Served on a Study Section
 - Cardio Renal Section, American Heart Association
 - Cardiac Biology Study Section, American Heart Association
- Received a National, Local or Civic Award
 - Early Investigator in Basic Sciences Award, Wake Forest School of Medicine
- Elected or Appointed to a Peer-Reviewed Journal Editorial Board
 - Therapeutic Advances in Cardiovascular Disease, Cardiorenal Medicine

Jasmina Varagic, MD, PhD, Division of Surgical Sciences, Hypertension & Vascular Research Center (cont.):

- Principal Investigator on Projects Funded in FY2012-2013
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-12): Novel pathways for angiotensin Peptide Formation - Project 1*, funded by the National Heart, Lung & Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-7) Inhibition of Hypertrophy % Fibrosis - Project 2*, funded by the National Heart, Lung & Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Angiotensin-(1-12): Novel pathways for angiotensin Peptide Formation - Project 1*, funded by the National Heart, Lung & Blood Institute
 - *Vasodepressor Mechanisms in Hypertension: Congenic-Transgenic Animal Resource Facility - CoreD*, funded by the National Heart, Lung & Blood Institute
 - *Establishment of a model for diabetic cardiorenal syndrome in female mRen2.Lewis*, funded by the National Heart, Lung & Blood Institute
 - *Diabetic Cardiorenal Syndrome in Estrogen-Depleted:Hypertensive Rats: Role of Curcumin*, funded by a Translational Science Center, WFU Pilot grant
 - *Vasodepressor Mechanisms in Hypertension*, funded by the National Institutes of Health

Mara Vitolins, DrPH, Division of Public Health Sciences, Department of Epidemiology & Prevention:

- Principal Investigator on Projects Funded in FY2012-2013
 - *HELP PD – Phase 3*, funded by the National Institute of Diabetes and Digestive and Kidney Diseases
 - *Enhancing ARIC Infrastructure to Yield a New Cancer Epidemiology Cohort*, funded by a subcontract with Johns Hopkins University
 - *Diabetes Primary Prevention Pilot MOU*, funded by the Mississippi Rural Health Association
 - *ALMASED Multicenter Diabetes Intervention Trial*, funded by the University of Freiburg, Germany

Mary Lou Voytko, PhD, Department of Neurobiology & Anatomy; Faculty Development; Office of Women in Medicine and Science:

- Principal Investigator on Projects Funded in FY2012-2013
 - *The Effect of Caloric Restriction on Brain Aging*, funded by the National Institutes on Aging

Lynne Wagenknecht, DrPH, Division of Public Health Sciences:

- Served as a Study Section Chair
 - CSR's Kidney, Nutrition, Obesity and Diabetes Study Section
- Served on a National Panel or Task Force
 - Appointed Chair of a Center for Scientific Review (CSR) grant-review committee
- Principal Investigator on Projects Funded in FY2012-2013
 - *Longitudinal Study of Predictors and Consequences of Chronic Kidney Disease*, funded by a subcontract with Johns Hopkins University
 - *Atherosclerosis Risk in Communities (ARIC) Study- Field Centers*, funded by a subcontract with Johns Hopkins University
 - *Genetic & Epidemiologic Predictors of Glucose Homeostasis Measures in Hispanics*, funded by the National Institute of Diabetes and Digestive and Kidney Diseases
 - *Identify Epidemiological Risk Factors for Abdominal Aortic Aneurysm*, funded by a subcontract with the University of Minnesota
 - *Intracranial Atherosclerosis (ICAs) and Cognitive Impairment Association Study*, funded by a subcontract with Johns Hopkins University
 - *ARIC Neurocognitive Study*, funded by a subcontract with University of North Carolina-Chapel Hill

Janice Wagner, DVM, PhD, Department of Pathology, Section on Comparative Medicine:

- Principal Investigator on Projects Funded in FY2012-2013
 - *LDL and Vascular Disease Assessed in a Novel Simulated Environment*, funded by Hemoshear, LLC

Lisa Washburn, MD, Department of Pediatrics:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Prenatal Events - Postnatal Consequences: Project 4/ANTENATAL STEROIDS AND CARDIOMETABOLIC RISK (Project 4)*, funded by the National Institute of Child Health and Human Development
- Other Noteworthy Accomplishment

WFSM 2013 Mid-Career clinical investigator award.

Kathryn Weaver, PhD, MPH, Division of Public Health Sciences, Department of Social Sciences & Health Policy:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Prevalence and Health Status of Cancer Survivors in the Rural US*, funded by the National Cancer Institute
 - *Cancer-Related Follow-up Care Experiences of Rural Cancer Survivors*, funded by the National Cancer Institute

Aimee Wilkin, MD, MPH, Department of Internal Medicine, Section on Infectious Diseases:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Ryan White Part D Coordinated HIV Services and Access to Research for Women, Children, and Youth*, funded by the Health Resource and Services Administration
 - *Ryan White Part B - HIV Patient Management Model Networks of Care*, funded by the North Carolina Department of Health and Human Services
 - *Strategic Timing of AntiRetroviral Therapy (The START Study). INSIGHT Network Associate Site*, funded by the National Institutes of Health
 - *A Phase 3b Randomized, Open-Label Study to Evaluate Switching from Regimens Consisting of a Non-nucleoside Reverse Transcriptase Inhibitor (NNRTI) plus Emtricitabine (FTC) and Tenofovir DF (TDF) to the Elvitegravir/Cobicistat/ Emtricitabine/Tenofovir Disoproxil Fumarate Single-Tablet Regimen (EVG/COBI/FTC/TDF) in Virologically-Suppressed, HIV-1 Infected Patients*, funded by Gilead
 - *Dental Reimbursement Program*, funded by the Health Resources and Services Administration
 - *Ryan White Part C Capacity Development Program*, funded by the Health Resources and Services Administration
 - *HIT Capacity Building Initiative for Ryan White HIV/AIDS Program Providers*, funded by the Health Resources and Services Administration
 - *NC-LINK: Systems Linkage and Access to HIV Care in North Carolina*, funded by the North Carolina Department of Health and Human Services
 - *A Multicenter, Randomized, Double-Blind, Double-Dummy, Phase 3 Study of the Safety and Efficacy of Ritonavir-Boosted Elvitegravir (EVG/r) Versus Raltegravir (RAL) Each Administered With a Background Regimen in HIV-1 Infected, Antiretroviral Treatment-Exp*, funded by Gilead Sciences, Inc.
 - *An International, Multicenter, Prospective Observational Study of the Safety of Maraviroc Used With Optimized Background Therapy in Treatment-Experienced HIV-1 Infected Patients*, funded by Pfizer, Inc.
 - *A Phase 3, Randomized, Double-Blind Study to Evaluate the Safety and Efficacy of Elvitegravir/Emtricitabine/Tenofovir Disoproxil Fumarate/GS-9350 Versus Efavirenz/Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Infected, Antiretroviral Treatment-Nai*, funded by Gilead Sciences, Inc.
 - *A Phase 3, Randomized, Double-Blind Study to Evaluate the Safety and Efficacy of Elvitegravir/Emtricitabine/Tenofovir Disoproxil Fumarate/GS-9350 Versus Ritonavir-Boosted Atazanavir Plus Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Infected, Anti*, funded by Gilead Sciences, Inc.
 - *A Phase 3, Randomized, Double-Blind Study to Evaluate the Safety and Efficacy of GS-9350-Boosted Atazanavir Versus Ritonavir-Boosted Atazanavir Each Administered with Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Infected, Antiretroviral Treatment*, funded by Gilead Sciences, Inc.
 - *A Phase 3 Randomized, Open-Label Study to Evaluate Switching from Regimens Consisting of a Ritonavir-boosted Protease Inhibitor and Two Nucleoside Reverse Transcriptase Inhibitors to Emtricitabine/Tenofovir Disoproxil Fumarate (FTC/RPV/TDC)*, funded by Gilead Sciences, Inc.
 - *A Phase 3b Open-Label, Single Arm Study to Evaluate the Safety and Efficacy of Cobicistat-boosted Darunavir Plus Two Fully Active Nucleoside Reverse Transcriptase Inhibitors in HIV-1 Infected, Antiretroviral Treatment Naive and Experienced Adults*, funded by Gilead Sciences, Inc.
 - *A Phase IIIb, Randomized, Open-Label Study of the Safety and Efficacy of GSK1349572 (Dolutegravir, DTG) 50 mg Once Daily Compared to Darunavir/Ritonavir (DRV/r) 800 mg/100 mg Once Daily Each Administered with Fixed-Dose Dual Nucleoside*, funded by GlaxiSmithKline
 - *A Phase 3, Randomized, Double-Blind Study to Evaluate the Safety and Efficacy of Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Alafenamide Versus Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Positive, Antiretroviral Trea*, funded by PPD Development, LP

Aimee Wilkin, MD, MPH, Department of Internal Medicine, Section on Infectious Diseases (cont.):

- Principal Investigator on Projects Funded in FY2012-2013
 - *A randomized, Double-Blind Phase 3B Study to Evaluate the Safety and Efficacy of Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Disoproxil Fumarate Versus Ritonavir-Boosted Atazanavir Plus Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Infected, A*, funded by PPD Development, LP
 - *A Phase 3, Randomized, Double-Blind Study to Evaluate the Safety and Efficacy of Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Alafenamide Versus Elvitegravir/Cobicistat/Emtricitabine/Tenofovir Disoproxil Fumarate in HIV-1 Positive, Antiretroviral Trea*, funded by PPD Development, LP

Patricia Wilson, PhD, Wake Forest Institute for Regenerative Medicine

- Principal Investigator on Projects Funded in FY2012-2013
 - *Stem Cell Technologies for Regenerative Medicine*, funded by the Christopher L. Moseley Foundation

Stacey Quintero Wolfe, MD, FAANS, Neurosurgery and Interventional Radiology

- Elected or Appointed to a National Board
 - Chairman, American Association of Neurological Surgeons Young Neurosurgeons Committee
- Elected to a Professional Society Officer Position
 - Treasurer, Women in Neurosurgery

Liliya Yamaleyeva, MD, MS, Division of Surgical Sciences, Hypertension & Vascular Research Center:

- Elected to a Professional Society Officer Position:
 - Appointed to the Early Career Committee of the Kidney in Cardiovascular Disease (KCVD) Council, American Heart Association
- Received a National, Local or Civic Award:
 - Young Investigator Award from the North American Society for the Study of Hypertension in Pregnancy
- Principal Investigator on Projects Funded in FY2012-2013
 - *ACE2 Deficiency: A new model of maternal and fetal growth restriction*, funded by the National Heart, Lung and Blood Institute
 - *Apelin and Angiotensin II interactions in human placenta in preeclampsia*, funded by the WFSM, Surgical Sciences Research Council and the Division of Surgical Sciences
 - *VisualSonics Vevo LAZR Photoacoustic Imaging System*, funded by the National Institutes of Health
 - *Vasodepressor Mechanisms in Hypertension: ANG-(1-7) And Prostanoids In Normotensive and Hypertensive Pregnancy - Project 5*, funded by the National Heart, Lung and Blood Institute
- Other Noteworthy Accomplishment
 - A figure from the receptor paper on Ang Peptides in the Placenta was selected to be on the cover of *Placenta*

Siqun Lilly Zheng, MD, Center for Genomics & Personalized Medicine Research:

- Principal Investigator on Projects Funded in FY2012-2013
 - *Serum Levels of EGFR-Signaling-Network Activators/Inhibitor and Risk of Lung Cancer*, funded by a subcontract with the Albert Einstein College of Medicine

Total for funded projects is: \$44,299,670.00.
