

CARECAST CHANGES for RESTRAINT REQUIREMENTS

EFFECTIVE: Tuesday, February 9, 2010

Who May Order Restraints/Seclusion?

- ➔ Any physician or LIP responsible for the care of the patient
- ➔ May not be written as PRN or as a standing order or in a protocol
- ➔ **MD must order** for each episode of restraint or seclusion use—verbal/telephone orders no longer necessary!

CareCast Changes

The following screen prints will demonstrate the new CareCast Screens for you to:

- ➔ Place Restraint Orders
- ➔ Place Restraint Time Limits
- ➔ Give Clinical Justification for Restraints
- ➔ Document Required Information in Restraint Menon Note
- ➔ An Alert for Restraint Order Renewals

Helpful Hints

➔ Renew non-violent restraints during your morning rounds to prevent receiving a call late at night for restraint renewals, for example:

➔ Patient ordered non-violent restraints at 2300 hours on 2/5/10;

➔ the actual order is active through 2300 hours on 2/6/10;

➔ **Renew the order on your morning rounds to change the time limit to the morning rounding time...OR**

➔ One of your colleagues (**or you**) will be getting a call at 2300 hours on 2/6/10 to renew the restraint order, if still needed

➔ Once you renew the initial order during rounds, the order alert will populate Provider Inbox daily around 5:15am beginning the next morning. This is your reminder to Renew or DC the restraint order, and complete the Menon note.
