

At a Glance

Wake Forest Baptist Medical Center (WakeHealth.edu) is a nationally recognized academic medical center in Winston-Salem, N.C., with an integrated enterprise including educational and research facilities, hospitals, clinics, diagnostic centers, and other primary and specialty care facilities serving 24 counties in northwest North Carolina and southwest Virginia.

Its divisions are: [Wake Forest Baptist Health](#), a regional clinical system with close to 175 locations, 1,100 physicians and 1,060 acute care beds; [Wake Forest School of Medicine](#), an established leader in medical education and research; and [Wake Forest Innovations](#), which promotes the commercialization of research discoveries and operates [Wake Forest Innovation Quarter](#), an urban research and business park specializing in biotechnology, materials science and information technology. Wake Forest Baptist clinical, research and educational programs are annually ranked among the best in the country by U.S. News & World Report.

Wake Forest Baptist holds the coveted Gold Seal of Approval from The Joint Commission, and in 2016 was ranked nationally in five adult medical and surgical specialties by U.S. News & World Report. Wake Forest Baptist also was ranked as High Performing in six other categories by the magazine.

The Medical Center is the region's only Level I trauma center, renowned for handling the region's most complex medical cases. With clinical expertise in more than 100 specialties including cancer, cardiology, geriatrics, nephrology, neurosciences, orthopaedics, pediatrics and urology, patients from across the country rely on the Medical Center for quality health care and compassionate service. Brenner Children's Hospital, which is nationally ranked by U.S. News & World Report in Orthopedics, is located on the main campus and offers a full range of specialized pediatric services. It was the first Level I pediatric trauma center in North Carolina.

Wake Forest School of Medicine is recognized as one of America's best graduate schools for its innovative, experiential learning curriculum, primary care training and

research programs. The School of Medicine directs the education of nearly 2,500 students, residents and fellows including physicians, basic scientists and allied clinical professionals.

The graduate school offers MD, PhD and MS degrees, as well as five joint-degree programs. The school's faculty focuses on pioneering breakthroughs in advanced medicine, basic science and leading-edge health care technologies. With \$172.1 million in research funding in the 2015 fiscal year, the school is a leader in driving discoveries, with current research priorities in:

- Aging/cognition
- Diabetes/obesity/metabolism and associated cardiovascular disorders
- Cancer
- Regenerative medicine

Wake Forest Baptist continues to be a major research and innovation center, making important contributions to biomedical and health science research nationally and internationally. The institution had \$160.7 million in licensing income from 2011–2015. Wake Forest Innovations commercializes technology, products and services arising from the discoveries and scientific assets of the Medical Center and Wake Forest University. Wake Forest Innovations also develops the Innovation Quarter in downtown Winston-Salem as a locale for businesses and academic endeavors.

By early 2016, the Innovation Quarter was home to more than 50 companies, numerous academic departments and 2,000 students undertaking advanced education and workforce development annually. About 3,000 people work in the Innovation Quarter, which comprises more than 2.5 million square feet of office, laboratory, event and educational space.
