9th Annual
Breast Cancer Symposium

Friday, September 26, 2014

Comprehensive Cancer Center
10th Floor Conference Room
Medical Center Boulevard
Winston-Salem, NC
Overview
The Ninth Annual Breast Cancer Symposium is planned for health care professionals who are involved in the medical care field and whose desire is to further their knowledge in breast cancer.

Target Audience
This activity is designed for Physicians (Radiation Oncologists, Oncologists, Surgeons, Plastic Surgeons, Gynecologists, Family Medicine), PAs, NPs and Oncology Nurses.

At the conclusion of this activity, participants should be better able to:

- Incorporate current guidelines and recent data on therapies — including advances in medical, surgical and radiation therapy — into the treatment of patients with breast cancer.
- Identify new genetic evaluation systems and implications for patient discussions.
- Describe the utility of tomosynthesis in breast cancer.
- Discuss currently recommended surgical margin guidelines.
- Identify and treat complications related to therapy for breast cancer.
- Discuss and implement current suggested surgical excision margin guidelines.
- Discuss opportunities for rehabilitation of the breast cancer patient.
- Describe new treatments for Her2 positive metastatic breast cancer.
- Discuss utility of genomic testing of patients with invasive and intraductal cancer of the breast.

This activity presented in conjunction with:
The Breast Care Center of the Comprehensive Cancer Center at Wake Forest Baptist Medical Center and the Northwest Area Health Education Center
Credit

- 0.6 CEUs from Wake Forest School of Medicine
