

**Center on Diabetes, Obesity and Metabolism
Seminar Series Presents:**

**Gene/Environment Interactions in
Type 2 Diabetes: The Adipocyte
Rears its Mighty Head Again**

Don McClain, MD, PhD

**Professor, Internal Medicine – Endocrinology
Director, Center on Diabetes, Obesity and Metabolism**

Dr. McClain is an endowed professor and founding director of the Center on Diabetes, Obesity and Metabolism. He also serves as a Professor of Internal Medicine-Endocrinology and Metabolism, is the Director of the CTSI, and the Associate Dean for Clinical and Translational Science. His research is centered on understanding the molecular basis for the pathogenesis of obesity, type 2 diabetes and its complications, and specifically how excess nutrients contribute to these processes.

Monday, May 1, 2017

4:00 – 5:00 p.m.

Comprehensive Cancer Center, 10th floor, Room 10B
