

Molecular Medicine and Translational Science Seminar Series

Fridays – 11:00 am -12:00 pm Hanes 1064

MMTS 711- Fall 2015 Schedule

Titles will be updated as dates approach

Date	Presenter(s)	Title	Location
Sep 11	Michael Seeds, PhD	Orientation and Photo Students only	Hanes 1064 11am
Sep 18	Samuel Pendergraft, PhD Candidate	Development of a Novel 3D Testicular Organoid Model for the Study of Human Spermatogenesis and Genotoxicity <i>in Vitro</i>	Hanes 1064 11am
Sep 25	Bryan Wilson, PhD Candidate	Evidence for a Mitochondrial Renin Angiotensin System: Internalization of Angiotensinogen within the Kidney	Hanes 1064 11am
Oct 2	Ayana Martin, PhD Candidate	Rebalancing Tregs by Directly Targeting Epigenetic and Mitochondrial Processes During Sepsis	Hanes 1064 11am
Oct 9	Michael Seeds, PhD Seminar course director	How to make posters and write abstracts	Hanes 1064 11am
Oct 16	Christopher Stuart, PhD Candidate	Targeted Delivery of Chemotherapeutics using DNA Aptamers	Hanes 1064 11am
Oct 23		Postponed	
Oct 30	Erica Lyons, PhD Candidate	Stable Overexpression of Cannabinoid Receptors in SHSY5Y Neuroblastoma	Hanes 1064 11am
Nov 6		NO SEMINAR	
Nov 13	Eleanor McCabe, PhD Candidate	Nanoparticle Mediated Hyperthermia Using Tissue Phantoms for Colorectal Cancer	Hanes 1064 11am
Nov 20		Postponed	
Nov 27	No seminar	Thanksgiving Holiday ---- NO SEMINAR	No Seminar
Dec 4	Daniel Ferguson, PhD Candidate	FINAL DEFENSE: Defining the Role of Lipid Droplet Scaffolding Proteins in Hepatic Steatosis Induced by Hepatitis C Virus Core Protein	Hanes 1064 11am
Dec 11	Crystal Bolden, PhD Candidate	The Potentially Beneficial Reactions of Nitrosopersulfide with Heme Proteins	Hanes 1064 11am

WFU Academic Semester Aug 25 - Dec 4, exams Dec 7-11, graduation Dec 30.

Bold denotes date confirmed by the student.

Course Director: Michael Seeds, PhD
