

Guidelines for Electronic Literature Citations

- This information is derived from: Patrias K. *Citing medicine: the NLM style guide for authors, editors, and publishers*. 2nd ed. Bethesda (MD): National Library of Medicine (US); 2007 (updated 2009 Oct 21; cited 2010 Sep 29). Available from: <http://www.nlm.nih.gov/citingmedicine>

A good citation should provide enough information for the reader to locate that resource in 5 minutes or less.

Type of Resource	Complete Citation Elements	Incomplete Citation Elements	Good Citation Examples
Book Chapter	Author(s) of chapter, chapter title, editors of textbook, textbook title, edition, place of publication, publisher, date of publication, date URL accessed, URL of resource	URL and/or chapter name and/or textbook title	Londner M, Hammer D, Kelen GD.
