

FREE Obstetrical Ultrasound Scan

The Program for Medical Ultrasound
is scheduling
Obstetrical Ultrasound models
for a continuing medical education course

March 7th, 8th, 9th, 2017
Various Appt Times
between 1:00pm - 3:00pm

We are a continuing medical education facility within Wake Forest Baptist Medical Center.

For over 40 years, medical professionals from around the world have attended our ultrasound program. As part of their training, we provide a hands-on ultrasound scanning lab component for which we recruit volunteer models.

As a model you would be in an individual scanning lab room with a professional instructor and 4 course attendees. A typical scan will take about an hour.

Please note:

- These are teaching scans, not clinical.
- We do not provide 3D or 4D scans.
- Only one additional person may accompany you.
