Class of 2016-17 Senior Residents

- Brian Abadir
- Mary Ellingboe
- Patrick Grace
- Seiha Kim
- Jason McGrady
- Meg Miller
- Jordan Rejeski
- Robert Snow
- Renee Stallings
- Eric Vangeloff
- Susan Vishneski
- Kristin West
- Wes Whitten

Annual Alumni Reception
Sunday, October 23, 2016
6:00 to 8:00 pm
Chicago Hilton
Joliet Room
(3rd floor)
Chicago Hilton
720 South Michigan Avenue
Chicago, IL

Anesthesia History Association Dinner
6 pm, Tuesday, 25, 2016
Pritzker Military Museum & Library
(Monroe Building, 2nd Floor)
104 S. Michigan Avenue
Chicago, IL

Keynote Speaker
Robert A. Strickland, MD
Isabella Coler Herb, MD: A Pioneer American Anesthetist and Dean of the Women Physicians in the Specialty

McCormick Place, West Bldg.

Level 5
Rooftop Garden

Level 4
Meeting Rooms (W470 - W474)

Level 3
Exhibition Halls
Skyline Ballroom (W375)
Central Concourse
Sky Bridge to North & South Buildings
Access to Parking Lot A

Level 2
Business Center
Food Court
Restaurant
Shops & Services
Conference Center

Level 1
Meeting Rooms (W175 - W196)
First Aid
Access to Parking Lot A
Transportation Center (Gates 43 & 44)
Saturday, October 22

**Hands-On Workshop - W180**

8:00-9:15 am
Flexible Endoscopy for Lung Isolation
Jerry R. Clark, Jr., MD, FASE, Faculty

2:30-3:45 pm
External Laryngeal Pressure, MC1166
Amy L. Cassidy, MD

**Scientific Exhibits - Hall F1**

10:30 am
Novel Device for Coaxial Endotracheal Tube Exchange, S06
Michael A. Olympia, MD

11:10:11:20 am
Objective Assessment of Tongue Swelling Using Digital Imaging Software in Patient with Angioedema, MC1163
Yvan F. Bryan, MD

11:30:11:40 am
Inability to Ventilate After Successful Intubation in Patient with Unsuspected TEF: Not Cuff but Seal Leak Solved with External Laryngeal Pressure, MC1166
Amy L. Cassidy, MD

**Medically Challenging Cases - Hall F1 Foyer**

11:00-11:10 am
Historic Case of a Massive Facial Laceration Resulting from Accidental Fall on Tiller: Facing Options and Using a Combination of Video Laryngoscopy and Flexible Fiberoptic Bronchoscopy for Intubation, MC1164
Yvan F. Bryan, MD

1:10-2:20 pm
Resistance to Propofol Induction in a Patient Taking Modafinil, MC2001
Timothy N. Harwood, MD

10:00-10:10 am
Dysrhythmias, Severe Bradycardia, Hypertension, and Shivering After Administration of Intravenous Ondansetron, MC2002
Timothy N. Harwood, MD

10:20-10:30 am
PECS I and PECS II Blocks to Provide Surgical Anesthesia for Mastectomy and Node Dissection and to Avoid General Anesthesia in a Patient with Severe Aortic Stenosis and COPD, MC2195
SUSAN R. VISHNUEKI, MD (R. Weller)

**Special Event - History Panel - W375b**

Great Anesthetic Disasters: Lessons from History

9:30-11:30 am
Unilateral Consequences of Diethyl Ether Use, SPE12
Robert A. Strickland, MD

Unrelated Deaths: Inadvertent IV Administration of Halothane, SPE12
Robert F. Bryan, MD

**Scientific Exhibit - Hall F1**

9:00-10:00 am
Novel Device for Coaxial Endotracheal Tube Exchange, S06
Michael A. Olympia, MD

**Medically Challenging Cases - Hall F1 Foyer**

10:00-10:10 am
Perioperative Management for a Patient with Persistent Hypotension Caused by Pulmonary Edema, MC2250
Chauan Yang, MD

1:10-1:20 pm
Peripheral Modulation and Other Measures to Reduce Pain: A Case Study, MC2251
James C. Eisenach, MD

**Sunday, October 23**

**Poster Presentations - Hall Foyer**

10:45-11:45 am
10:10-11:10 am
11:30-12:00 am
1:10-2:00 pm
4:00-5:00 pm
4:00:5:15 pm
Area C
Area C
Area A
Area A
Area C
Area C

4:5:15 pm
Medically Challenging Cases - Hall F1 Foyer

1:10-1:20 pm
Perioperative Management for a Patient with Persistent Hypotension Caused by Pulmonary Edema, MC2250
Chauan Yang, MD

1:30:1:40 pm
Posterior Medial catheter, MC2384
Andrew Deacon, MS-2 (D. Jaffe)

2:00-2:10 pm
Electrical Stimulation to Confirm Placement of a Thoracic Epidural Catheter in an Intubated SICU Patient, MC2387
Selka Kim, MD (S. Dohen)

3:35-3:45 pm
Pushing the Limits of Pulmonary Physiology: A Super Obese Patient in Steep Trendelenburg Position, MC2479
Robert F. Snow, MD (C. Tong)

**Scientific Exhibit - Hall F1**

9:00-10:00 am
Novel Device for Coaxial Endotracheal Tube Exchange, S06
Michael A. Olympia, MD

**Medically Challenging Cases - Hall F1 Foyer**

10:00-10:10 am
Resistance to Propofol Induction in a Patient Taking Modafinil, MC2001
Timothy N. Harwood, MD

10:10-10:20 am
Dysrhythmias, Severe Bradycardia, Hypertension, and Shivering After Administration of Intravenous Ondansetron, MC2002
Timothy N. Harwood, MD

10:20-10:30 am
PECS I and PECS II Blocks to Provide Surgical Anesthesia for Mastectomy and Node Dissection and to Avoid General Anesthesia in a Patient with Severe Aortic Stenosis and COPD, MC2195
SUSAN R. VISHNUEKI, MD (R. Weller)

**Poster Presentations - W178ab**

**120-Minute Panel - The Resolution of Pain After Surgery and Trauma: Emerging Concepts Bring New Opportunities, PN216**

1:10-1:30 pm
Persistent Pain and Descending Inhibitory Modulations
James C. Eisenach, MD

**Medically Challenging Cases - Hall F1 Foyer**

1:10-1:20 pm
Perioperative Management for a Patient with Persistent Hypotension Caused by Pulmonary Edema, MC2250
Chauan Yang, MD

1:30-1:40 pm
Posterior Medial Catheter, MC2384
Andrew Deacon, MS-2 (D. Jaffe)

2:00-2:10 pm
Electrical Stimulation to Confirm Placement of a Thoracic Epidural Catheter in an Intubated SICU Patient, MC2387
Selka Kim, MD (S. Dohen)

3:35-3:45 pm
Pushing the Limits of Pulmonary Physiology: A Super Obese Patient in Steep Trendelenburg Position, MC2479
Robert F. Snow, MD (C. Tong)

**Scientific Exhibit - Hall F1**

9:00-10:00 am
Novel Device for Coaxial Endotracheal Tube Exchange, S06
Michael A. Olympia, MD

**Medically Challenging Cases - Hall F1 Foyer**

10:00-10:10 am
Resistance to Propofol Induction in a Patient Taking Modafinil, MC2001
