

How to log in for your Video Visit: Computer

Log in to **myWakeHealth.org**

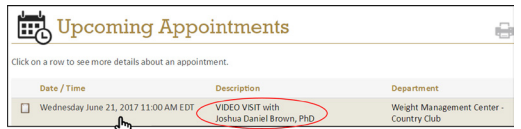

Note: You **must** use **Internet Explorer** or **Safari** browsers.

If you do not yet have a **myWakeHealth** account, use the Online Now option to sign up.

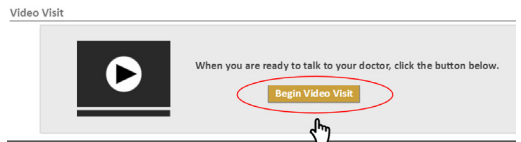

After logging in, go to **Visits > Upcoming Appts**

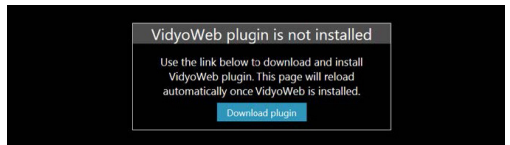

On the upcoming appointments page, choose the **Video Visit**.

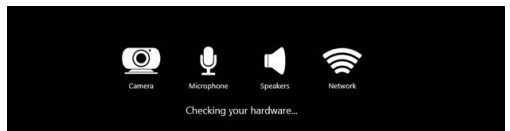

Review the information regarding your appointment. Once you have reviewed the information, choose **Begin Video Visit**.

A screen will open asking you to download the VidyoWeb plugin. Choose **Download plugin**. Run this plugin to install the necessary software to conduct your visit.

Once that is completed, the plugin will check your system and the connection before starting your visit.

Once that is confirmed, all the icons will turn green and your video will start.
